

## + The power of Masterminds

In this session we will explore the concept of Masterminds. It is a very powerful tool crafted and developed by Napoleon Hill in the 1930's.

Mastermind groups offer a combination of brainstorming, education, peer accountability and support to sharpen your business and personal skills.

A mastermind is a small and intimate group of like-minded professionals who come together to collaborate and generate new ideas, while supporting each other and holding themselves accountable for their goals.

A mastermind group helps you and your mastermind group members achieve success. Members challenge each other to set strong goals, and more importantly, to *accomplish* them.

**“It is the principle through which you can accomplish in one year more than you could accomplish without it in a lifetime if you depended entirely on your own efforts for success.” by Napoleon Hill.**

In this session, I will spark your light to learn about:

- The key principles of mastermind.
- Explore the power of hot seats.
- Sharing a common purpose with others.
